RICHARDS BAY TERMINAL COMMERCIAL DEPARTMENT

Dear Customers & Stakeholders

It was announced a number of months back that the two TPT terminals in Richards Bay would merge from a management perspective. This serves to confirm that as from 1 August 2010, there will be one commercial team in Richards Bay headed by myself. For the most, portfolios will remain the same with a few exceptions which will be communicated to the relative customers and stakeholders individually by these respective managers.

As you may be aware, Unathi Mapoma will soon be expecting child and will be going on maternity leave sometime during August. We have ensured her portfolio will be covered in the interim period that she is away from work.

This communiqué may still reach you more than once, but please bear with us as it will take a little time to refine our processes.

Kind regards
