## King Shaka Airport – Durban

Dear valued clients, effective 1<sup>st</sup> May Durban Airport has relocated to the new King Shaka International Airport at La Mercy. This means that the New Airport is some 55 km's (one way) compared to the old Airport which was approx 20 km's from the City/port area.

As noted this is now more than double the distance to travel, and as such transport tariff increases are to be expected.

On a positive note there will be now more direct international flights and this will reduce the need for Meet and assist in Johannesburg OR Tambo Airport..

Airport transfer times will increase due to the various factors from an average of 3 hours To an average of approx 4 hours from transfers.

We will keep you posted and please do not hesitate in contacting us for relevant airport Transfer quotations.
